BEAN PROJECT
where a woman earns her future

*The Bean Project
is changing my life.
I am so excited for all
of the resources
they have available
to me and my family.*

*Where new lives start
one by one.*

Women's Bean Project is a nationally recognized social enterprise that provides jobs for chronically unemployed and impoverished women. They create lovingly handmade gifts, gourmet food and jewelry for consumers and retailers.

Every sale changes a woman's life.

Our program participants come from all walks of life and varying circumstances, but they share one commonality—chronic unemployment. This is caused by a myriad of circumstances such as lack of education, inconsistent employment, a history of incarceration, or a former addiction. What matters is that we meet the women where they are and create an environment that is supportive, non-judgmental and safe. We help them to obtain the necessary job skills and life skills to find and keep permanent, full time, career entry-level employment. Women work in our 9-month transitional employment program to change their lives and create better futures for themselves and their families.

Each product has a story behind the hands of the woman who spent hours packaging it. From the beans that go into each bag to the delicate beads threaded on a beautiful handcrafted necklace—our products provide hope and a chance for a woman to earn her future through the skills she gains at Women's Bean Project.

For every dollar businesses like the Bean Project spend, the return on investment to society is \$2.23. Women's Bean Project is a win-win for the women, their families, our community and our economy.

"I have seen how difficult, but necessary, it is to stare adversity in the eye. And despite setbacks—because setbacks always occur—a path to a new life can be created."

TAMRA RYAN, CEO

SOMETIMES, BELIEVING IN ANOTHER PERSON'S POTENTIAL IS ALL IT TAKES FOR LASTING CHANGE.

THE THIRD LAW BOOK BY CEO TAMRA RYAN

According to Newton's third law of motion, for every action there is an equal and opposite reaction. The Third Law shows us that even as women work to change their lives there are forces pushing back on that change, societal obstacles that must be overcome and internal demons that must be squelched. It explores what is required for chronically unemployed and impoverished women to create new lives for themselves. Most of all, the book argues for a more compassionate view of recovering addicts, convicted felons, and victims of domestic abuse. #BOOK01 \$14.95
